DETAILED ACTION

Applicant's amendment dated 12/17/2007 has been received and entered. Claims 2-12 are now pending in the application. Claims 1 and 13 were canceled.

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. The title has been changed to: "Frame for liquid crystal display device provided with protrudent elements and blocking elements being engaged with mounting openings and indentations."

End of examiner's amendment.

Reasons for Allowance

2. **Claims 2-12** are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. The prior art of record neither disclose nor make obvious a liquid crystal display device comprising a combination of various elements as claimed. For instance, the **Lee et al.** reference (**U.S. Publication Number 2003/0043314**) fails to disclose or suggest "*said bottom surfaces of said plurality of protrudent elements have same horizontal positions as upper surfaces of said blocking elements.*" The **Lee et al.** reference only discloses a liquid crystal display device comprising: a liquid crystal display body; a base having a first frame; a cover having a second

Art Unit: 2871

frame for covering said base through an engagement between said first frame and said second frame; a plurality of mounting openings mounted on an outer wall of said second frame; a plurality of indentations positioned at a bottom surface of said second frame; a plurality of protrudent elements mounted on an outer wall of said first frame and having positions corresponding to those of said plurality of mounting openings for being engaged with said plurality of mounting openings so as to secure said engagement between said first frame and said second frame; and a plurality of blocking elements mounted at a bottom surface of said first frame and having positions corresponding to those of said plurality of indentations for preventing said bottom surface of said second frame from being pressed over said bottom surface of said first frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lauren Nguyen whose telephone number is (571) 270-1428. The examiner can normally be reached on M-F, 7:30-5:00 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on (571) 272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
